

# The HL7 Europe Medication, Prescription and Dispense FHIR IG and its alignment with Xt-EHR

Webinar, 17 July 2025  
16.00-17.00 CEST

Online on Teams

# The EHDS FHIR IG ecosystem

*An HL7 Europe webinar series 2025*

# The HL7 Europe Medication, Prescription and Dispense FHIR IG and its alignment with Xt-EHR

## *Introductions*

- Presenters:
  - Giorgio Cangioli, HL7 Europe
  - Daniel Karlsson, Swedish eHealth agency
  - Rutt Lindström, TEHIK, Estonia and HL7 Europe
- Facilitator: Michael Strübin, HL7 Europe

# Housekeeping

- To help ensure a successful webinar please:
  - Use the chat (for comments, questions...)
  - Use reactions/emojis during the presentations
  - Raise your hand if you'd like to speak
  - If you are invited to speak, please turn on your video and say who you are
- The webinar will be recorded.
- Link to recording and slides (in pdf) on [www.hl7.tv](http://www.hl7.tv) will be emailed to all registered participants.
- Links on the slides can be clicked and opened on your device: try it.
- Your feedback is welcome: we will invite you to complete an online survey.

# The HL7 Europe Medication, Prescription and Dispense FHIR IG and its alignment with Xt-EHR

## Agenda

- Welcome, introductions, housekeeping
- Introduction of the FHIR IG ecosystem for the EDHS  
*Giorgio Cangioli, HL7 Europe*
- The Xt-EHR logical model and the EEHRxF IG for ePrescription and eDispensation  
*Daniel Karlsson, Swedish eHealth agency*
- The FHIR Medication Prescription and Dispense (MPD) IG  
*Rutt Lindström, TEHIK, Estonia*
- Discussion and Q&A
- Next steps

End

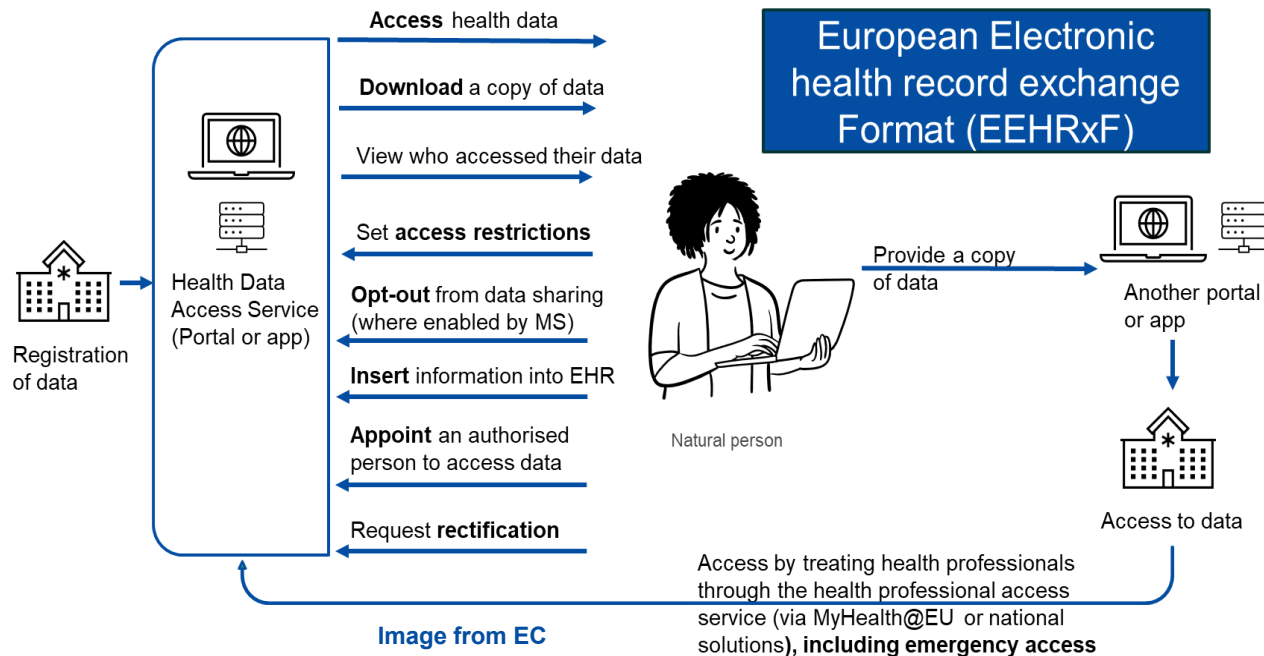

# Who am I

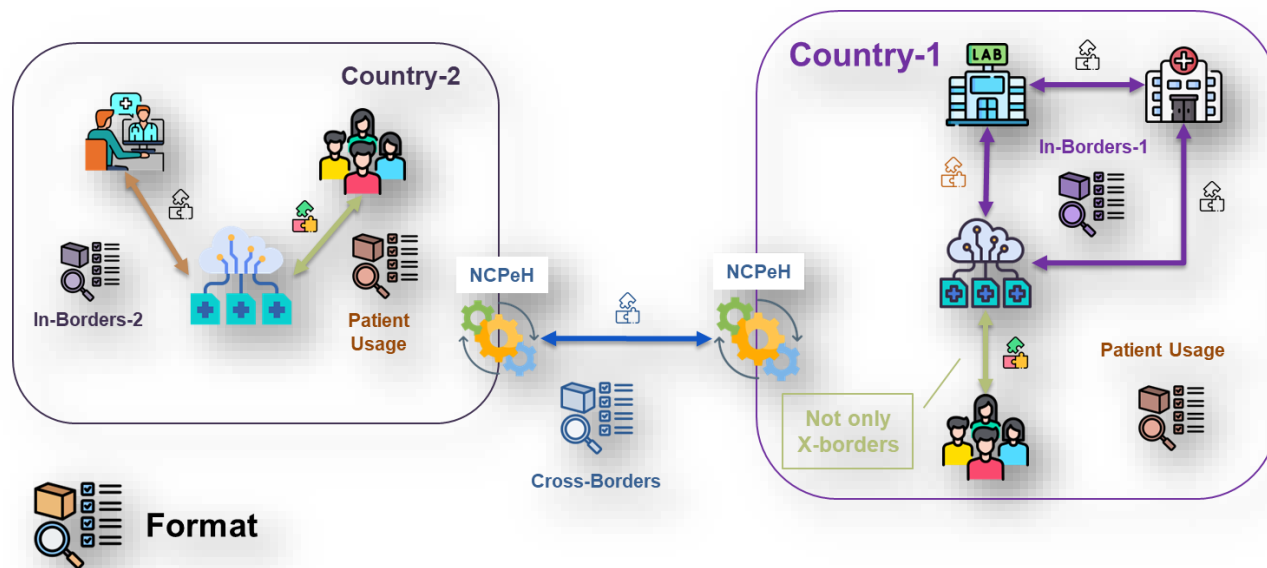

## **Giorgio Cangili** **Technical Lead – HL7 Europe**

- Senior Consultant
- Technical Lead and Board member, HL7 Europe
- TSC and Board member, HL7 International
- Chair of the eHMSEG STF Architecture WG
- Author of several UV and EU HL7 CDA and FHIR Igs (including IPS)

# The context: EHDS Primary use

# The context: not only cross-border !

# The context: priority categories for primary use

Member States may provide by virtue of national law that additional categories of personal

The Commission is empowered to adopt delegated acts <...> by adding, modifying or removing the main characteristics of the priority categories

Medical test results, including laboratory and other diagnostic results and related reports

Discharge report

Patient summary

Medical imaging studies and related imaging reports;

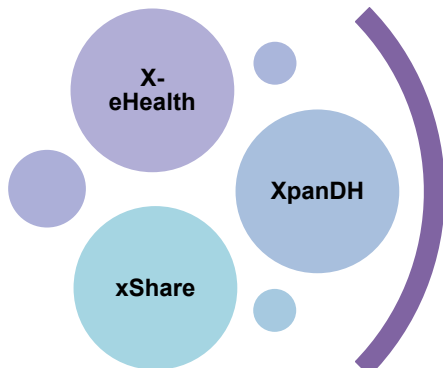

ePrescription/  
eDispensation

# The context: several actors engaged

# Different profiles comply with The Format

## The Format

## Crossborder

Transformation at NCP

## National specs

# Scope according to the EHDS regulation

<https://hl7.eu/fhir/mpd/scope.html>

Electronic health data category	Main characteristics of electronic health data included under the category
2. Electronic prescriptions	Electronic health data constituting a <u>prescription for a medicinal product</u> as defined in Article 3, point (k), of Directive 2011/24/EU.
3. Electronic dispensations	Information on the <u>supply of a medicinal product to a natural person by a pharmacy based on an electronic prescription.</u>

(k) 'prescription' means a prescription for a medicinal product or for a medical device issued by a member of a regulated health profession within the meaning of Article 3(1)(a) of Directive 2005/36/EC who is legally entitled to do so in the Member State in which the prescription is issued;

Member States shall ensure that pharmacies operating on their territories, including online pharmacies, are able to dispense electronic prescriptions issued in other Member States, under the conditions laid down in Article 11 of Directive 2011/24/EU.

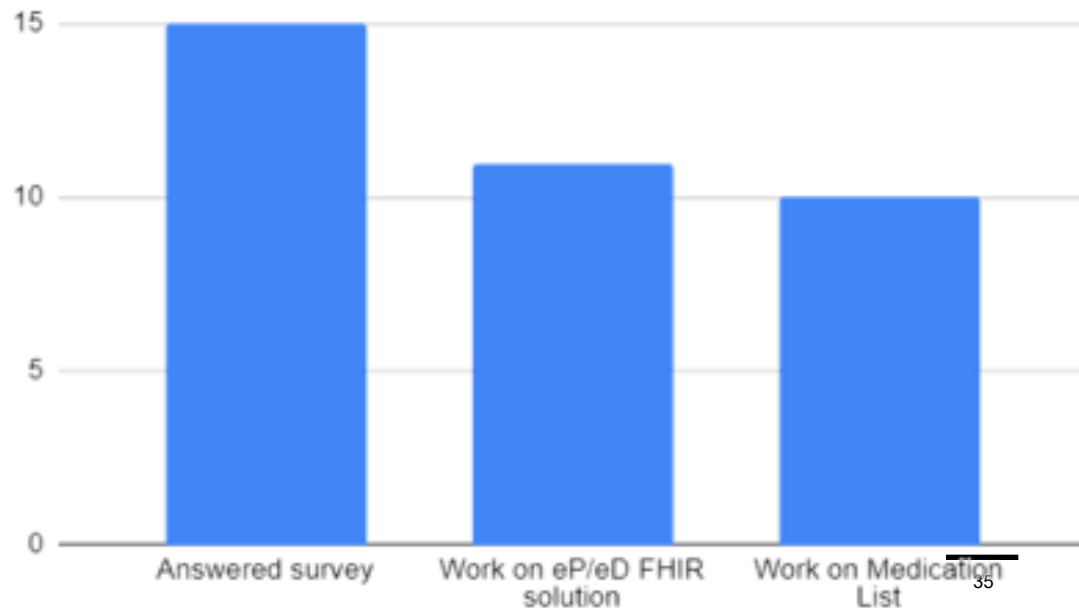

# Scope according to the EHDS regulation

The scope of EHDS requirements does not include:

- Internal healthcare prescription workflows, e.g. draft prescriptions
- Prescription repositories, i.e. how prescriptions and dispenses are managed in MSs

# National tendencies

- FHIR facades for existing prescription systems
- A lot of work on medication overviews
- Mostly FHIR R4, also R5

# Prescription List vs Medication Overview

## Prescription List

## Medication Overview

Prescribed	Dosage	Dispensed product	Issue date	Prescriber
Nitrofurantoin 50mg tablet	1 tablet a day, continuously	NITROFURANTOIN ORIFARM	16.10.2023	E. Mass
Nitrofurantoin 50mg tablet	1 tablet a day, continuously	NIFURANTIN 50MG	22.06.2023	E. Mass
Nitrofurantoin 50mg tablet	1 tablet a day, continuously	NITROFURANTOIN ORIFARM	21.03.2023	E. Mass

This profile defines how to represent Medication data on ePrescription and eDispensation

FHIR IG mostly example ValueSets

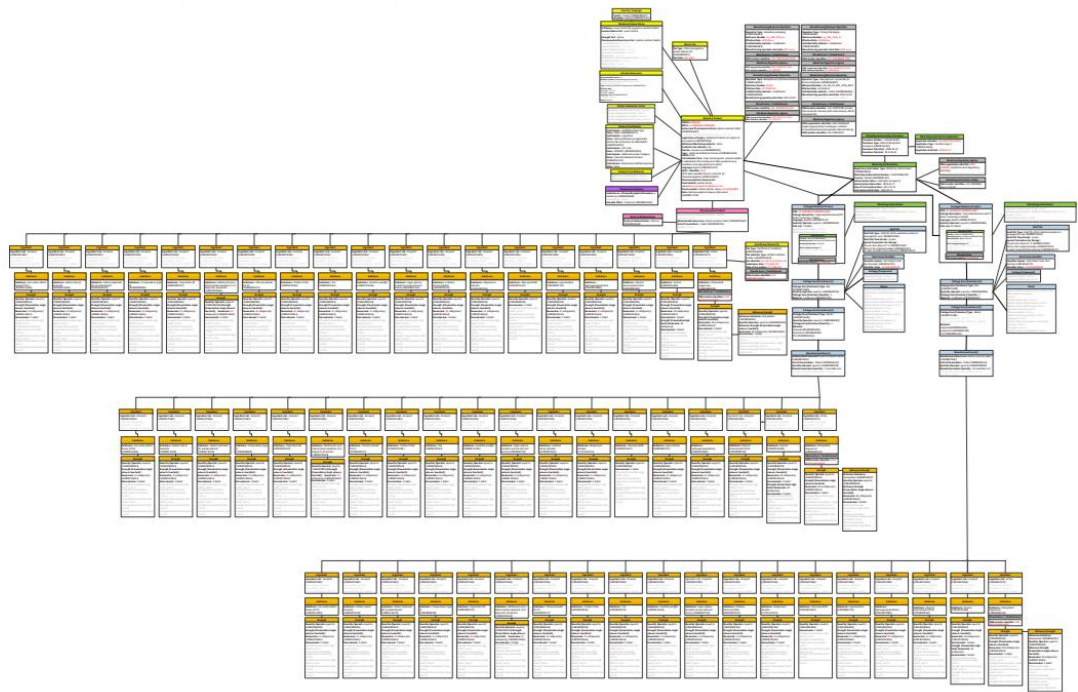

<https://hl7.eu/fhir/mpd/terminology.html>

# Multi-item prescription

- 11 countries (out of 18) allow multiple items
- 4 different approaches found in national IGs
- MyHealth@EU specification allows 1 item
- Help from IHE and HL7 to provide guidance
- Multi-item dispense is rare

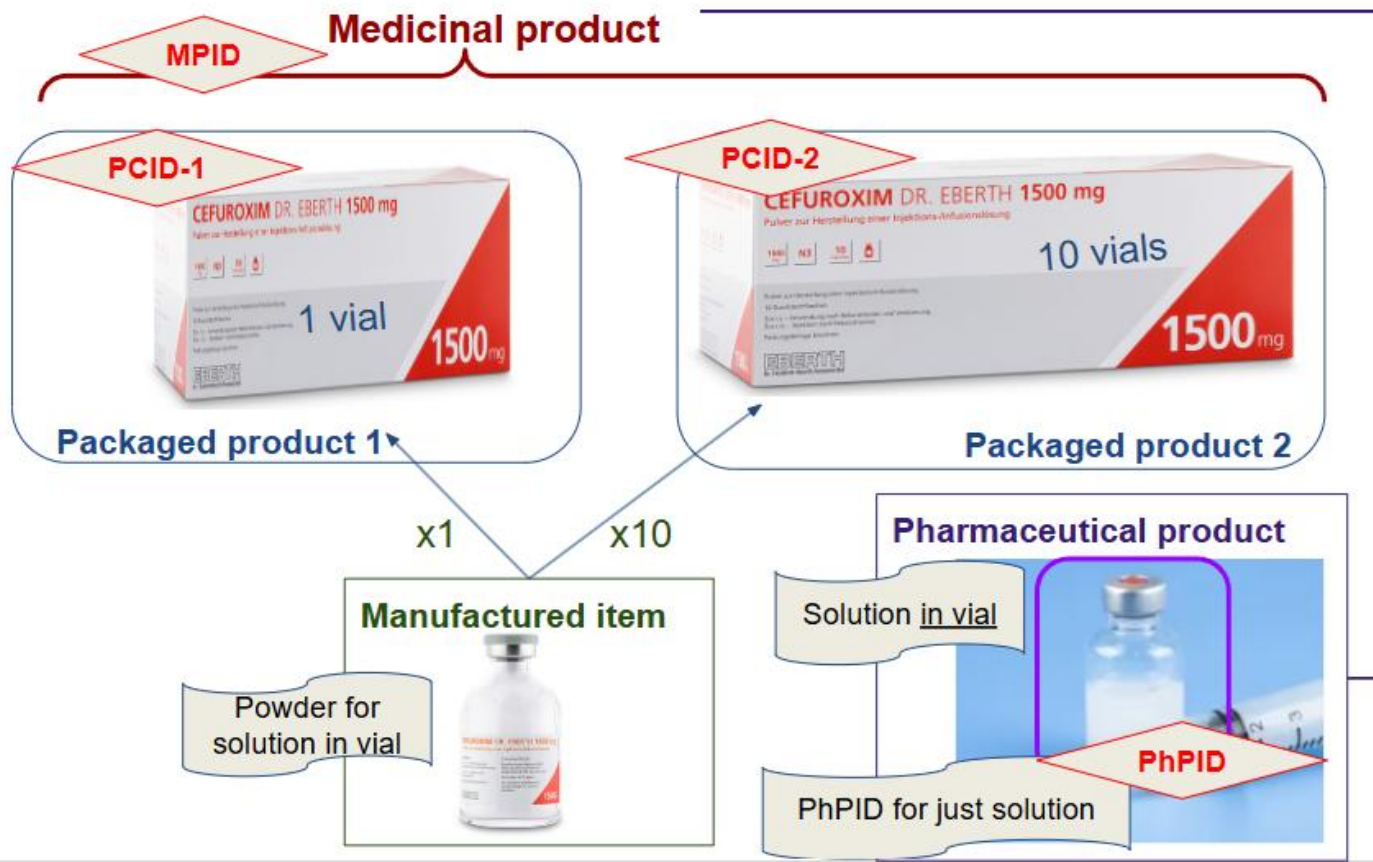

**Example 1: Losec Control 20mg gastro-resistant tablets <sup>1</sup>**

- Any identifier works
- Data model very big
- No global terminology
- EMA SPOR for eHealth?

# Any IDMP concept fits into Medication

# Support simple & complex medications

## Medication (Canifug Cremolum)

doseForm: Creme + Pessary

code: ...

Ingredient  
item1:

### Medication (creme)

doseForm: vaginal creme

ingredient: clotrimazole 10mg/g

totalAmount: 1 tube / 20g

Ingredient  
item 2:

### Medication (pessary)

doseForm: pessary

ingredient: clotrimazole 100mg

totalAmount: 6 pessaries
